MORE COMPLICATIONS.

It is stated that Russia has demanded, through the Porte, the expulsion of the British fleet from the Sea of Marmora, and that England has replied that she will with-draw the fleet only after the Russians had departed from Constantinople.

It is probable that the British fleet will shortly enter the Bosphorus.

THE PALL MALL GAZETTE SAYS WAR. LONDON, March 30.-The Pall Mall Gazette last evening printed an article headed "The New Turn of Events," in which after reviewing the resignation of Lord Derby, says: "We fear it must be assumed that diplomacy has said its last word, Eng-land and Russia are too definitely com-mitted to the positions which they have respectively assumed to allow any with-drawal. The difference is so essentially a one of principle that it is impossible for any third power to suggest an accept-able compromise. The advance of Russian troops to the Bosphorus and upon Gallipoli may be immediately expected."

These words acquire great significance when it is remembered that the Pall Mall Gazette is the property of Right Hon. W. H. Smith, First Lord of the Admiralty.

Notwithstanding the Minister de-sires to respond as far as the duties of his office permit to requests made by his countrymen, the vagueness of the statements made to him in most cases prevents an investigation being made. There is no general regis-try or Surrogate's offices in Holland where wills are accessible to the public, as with us.

The wills are drawn up by a notary, who retains the original in his possession as a trust to be guarded by himself and his successor. Unless the locality of the property and residence of the testators are known as well as the time of his death, it is almost impossible to discover the notary without extensive advertising.

After the election it will be said that the School Board should not be considered a political body, and that members should vote without regard to party. It will be well to remember this when electing the members.

L. L. Sadler, candidate for Council in the Fif-teenth Ward, deserves special mention as an old member whose record stands untarnished. As a member difthe Finance Committee, like Rothert and Voight, he always looked to the interest of the city. Mr. George L. The Committees of the Democratic, Republican and Workingmen Executive Committees respectively met last night and agreed to use their influence to give the Workingmen a Judge at county and township polls in District B of each ward. It is only by consent and co-operation of bystanders that they can do this, as the law puts the selection of the third Judge in the hands of the bystanding electors of the district. This gives each of the three parties one Judge of Election at the polls named.
